

2ND COMPLEX KNEE INJURY COURSE

17TH & 18TH NOVEMBER 2023 | JAIPUR INDIA

THEME: UNDERSTANDING COMPLEX KNEE INJURIES

Welcome Message

Dear Colleagues,

After a resounding response for the 1st Master Course in 2019, we are pleased to announce the '2nd Master Course in Complex Knee Injuries' in association with Arthroscopy Academy and Arthroscopy Study Group of India. This two-day event will be completely focused on complex knee injuries including revision ACL reconstruction, anatomic PCL reconstruction, posterolateral and posteromedial corner injuries, meniscus injuries, realignment procedures and patellofemoral instability.

The aim of the Master Course is to cover the anatomy, biomechanics, clinical evaluation and current updates on surgical management of complex knee injuries. The programme is designed by us and will consist of symposia, keynote lectures, live cadaveric dissection and panel discussions. The course will provide a great opportunity to learn and understand 'Complex knee injuries' in a simplified manner.

We welcome you all to Jaipur for this grand event and look forward to an incredible academic gathering.
